Ituna was incorporated as a village on May 30, 1910, its unique name originating from a combination of the desire of the Grand Trunk Railway to name all its towns in alphabetical order and ancient history. Since the preceding towns were Fenwood, Goodeve and Hubbard, the town needed a name beginning with "I". "Ituna" was chosen, the name of a location at the end of Hadrian's Wall which was built by the Roman Empire in 12 A.D. Ituna was incorporated as a town in October 1961.

The spirit of community and co-operation that built Ituna from its early days, remains today.
